

WC Docket # 18-155 regarding: Updating the inter-carrier compensation regime including conference calling services.

Dear Sirs: I regularly use conference calling for committee meetings, singing calls, church services, family calls etc. Taking away this free service, could make conference calling cost prohibitive. I also endorse the following.

DOCKET FILE COPY ORIGINAL

As a taxpayer, and a free conference calling client, I ask you to please reconsider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, millions of others and our businesses.

I am urging you to refrain from eliminating services that I and millions of other Americans use regularly.

Long-distance carriers will not be negatively affected, financially or otherwise, if free conference calling services are left alone. In fact, they stand to gain upwards of \$80 million.

However, if the FCC does decide to remove these services, I and millions of other American citizens and American businesses will be immediately and negatively affected. We will no longer be able to use these services for free and will instead be forced to pay for conferencing services provided by the long-distance carriers if we want to reach our non-profit organizations, our families, our churches, singing calls, news calls, prayer groups, support groups, board meetings, committee meetings, startups, schools, and global corporate communities and their families.

Widows and other lonely individuals are finding comfort in this type of free conference calling.

Do not take away my free conference calling services and further line the pockets of major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its rulemaking in WC Docket No. 18-155.

Signed,

Lauren J. Weaver

W C Docket no 18-155

As a taxpayer, and free conference calling client, I ask you to reconsider acting on WC Docket 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, and others in our churches.

I am urging you to refrain from eliminating these services that I use when we cannot go to church. It would make me very sad if the widows and lonely could not listen in to our Sunday morning or eve church service without having to pay.

I ask the FCC to refrain from proceeding with its rulemaking in WC Docket No 18-155..

Thank you for considering this matter,

Opal Fullmer

*Please, reconsider the service, I would
be hard pressed to continue hearing
singing calls, & news, as I'm a
widow & enjoy this very much...
Thank you.*

To Whom It May Concern,

FCC Mailroom

I realize it is not accepted practice to investigate anonymous issues. But if you are interested in more information, I can be reached at the phone of a friend 304-3183.

I am a widow and have been battling ATT with this issue and scam and cannot get a resolution. I was told that I must switch to fiber optics and have internet and a modem and sign a contract if I wanted phone service. I desperately need a phone and signed. I was then billed for internet (I have no computer or any need for one)

I have tried repeatedly to speak with the phone company and have continued to pay my phone bill. I was told I would have to pay the entire contract amount to have no internet ! I was taken advantage of by being told I MUST have this, I had no choice. I am now being threatened with them cutting off my phone service because of the internet bill. If I have an emergency and cannot contact anyone for help, I have instructed my family as to the course of action to pursue and who to hold responsible. I have all documentation and also know of others who were approached with this scenario. If you are interested in this as part of your civic and consumer interest, I would be happy to show you my proof. It is a disgrace that multi billion dollar corporations prey on the most vulnerable of our society, using scare tactics for such a basic service.

Thank you,

A very concerned and disgusted citizen
